

Our focus is to supply quality wine products to the retail market in South Africa and to establish an International market with its own brand portfolio products.

CAPE TABLE

Sangria

COOLER

Sangria stems originally from Spain and later Portugal. The product became popular as a sweet, flavoured, low alcohol alternative to standard wine.

Whilst it had been introduced as a Red Wine blend with orange, lemon and apple juice, new flavours were added in recent years. Flavoured White wine variants became particularly popular all over the globe over the last few years.
