Our focus is to supply quality wine products to the retail market in South Africa and to establish an International market with its own brand portfolio products.

The Cape Table wine range is made from selected grapes from vineyards in the beautiful Riebeeek Valley in the Western Cape region of South Africa. The brand was established by Riebeeek Cellars in 1997 and later placed with Riebeeek Retail Brands (Pty) Ltd in 2003.

The association with Riebeeek Cellars ensures stability in the supply of quality wine whilst we stay in touch with the ever changing preferences of consumers.

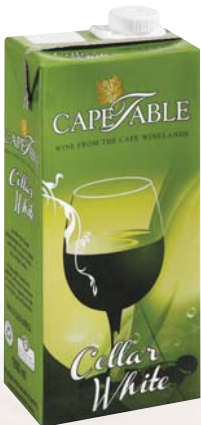

We have crafted a range of wines which caters for a wide array of different tastes. The wines offer great value and will deliver on quality and price.

Conveniently packed in 1 Liter Tetrapak packaging, it offers extended shelf life and protection against the harsh conditions in the South African- and Greater African value chains.

Product:

The Cape Table wine range consists of six wines with varying alcohol and sweetness levels. Packed in Tetrapak, the wines are protected from hazardous sunlight and oxygen contamination. 12 Months shelf life
